## **PRESS RELEASE**

Wednesday, March-13-19

Information has been forwarded to the Township that Renfrew Power Generation will be permitted to draw down Round Lake 5 cm this week and 5 cm next week.

The Township prior to this, sent a formal letter to Minister Yakabuski expressing concern for Golden Lake and downstream properties. The Township requested assurances that there would be no negative impacts to our Township.

Hopefully concerns were addressed prior to permitting this draw down.

The Township does not have control over this event.

As further information is provided there will be more media releases.

Andrew Sprunt  
CAO
